

Binh & Penny Tennis Academy

South Jordan Park Tennis 2018

Program begins March 2018

Our students recognized our passion for the game and how it is taught. We believe in giving each student personalized attention to our approach in their development. Everyone learns differently and there is not one set way to teach a skill or strategy. That's what makes our style of teaching unique. As a team we have worked to create and maintain tennis programming for players of all ages.

We believe in building a strong foundation based on fundamentals for beginners. For the intermediate and advanced players, we bring the vast wealth of cutting-edge technology utilized in the game today as provided by continuing education through USPTA and USTA. Together we will unlock the tennis player in you. We want everyone who comes into our program to feel our dedication and passion to their improvement and love for the game of tennis.

We will be enforcing a strict ratio of players to pros of NO MORE than 6:1.
