Re: *Rocky Mountain Power Application for Conditional Use Permit
Application No. PLCUP201800742*

Dear Ryan:

Thank you for your continued courtesy as we've been working on Rocky Mountain Power's conditional use permit application to upgrade our 46kV line to 138kV through portions of South Jordan City.

We have appreciated working with City staff to provide additional information about the project. As the City is aware, Rocky Mountain Power has critical timelines and construction scheduling to meet, in order to provide the continued service to South Jordan customers that this upgrade will allow. Since the City has acknowledged that Rocky Mountain Power's application is complete and ready for deliberation, Rocky Mountain Power respectfully requests in accordance with Utah Code § 10-9a-509.5 that the application be scheduled for hearing by the Planning Commission on or before the March 12, 2019, regular meeting.

Please let me know if you would like to discuss any aspect of Rocky Mountain Power's application.

Best regards,

A handwritten signature in black ink, appearing to be "HG", written over the typed name "Heidi Gordon".
