SUPERVISOR

Water Conservation/Quality Coordinator

POSITION(S) SUPERVISED

None

ESSENTIAL JOB FUNCTIONS

Meet performance standards established with the employee's supervisor.

Job attendance is required, except for authorized leave.

Receive assignments from the Water Conservation/Quality Coordinator, to ensure water quality is met within the distribution system. Conduct various water sampling test for acceptable water.

Manage the city water model and update weekly with the changing conditions of the system. Run Weekly reports from city water model to determine areas with aging water. Develop a plan to eliminate aging water and work with distribution lead to execute. Perform and place flushing equipment to prevent aging water. Provide weekly reports to Division Manager regarding the system condition.

Investigates, and responds to customer water quality complaints. Collects samples, reports findings, provides information and insure follow-up as necessary.

Researches new and upcoming drinking water regulations and analyzes water quality data to make recommendations to Distribution Lead Worker for maintaining and optimizing distribution system quality and compliance.

Monitors the city SCADA system to ensure chlorine levels are acceptable within the system and make the appropriate changes to the water model. Analyzes historical chlorine level data to predict and prevent low/no chlorine issues.

Develops and updates procedures for water quality emergencies and trains Water Division staff on water quality emergency response.

Operates, calibrates and maintains instruments and equipment used to monitor water quality.

Responds to emergency water quality events to monitor, diagnose, remediate and collect samples as requested.

Maintain all water sampling plans and update if needed.

Prepares annual water quality report.

Observe and actively participate in work zone safety procedures and follow safety principles when operating vehicles and equipment to reduce/eliminate accidents and injury.

Operate, clean, and maintain tools, vehicles and equipment to assure proper working order.

Maintain computer based work orders on a daily basis to provide accurate data for monthly reports.

Compensated on-call rotations as assigned. Must remain available for phone contact and respond to work site within one (1) hour of notification and be in compliance with the City's Drug & Alcohol policies.

Subject to uncompensated stand-by by rotation for a given event, such as a pending snow storm event or response to a natural disaster. Compensation for actual time worked, premium compensation for time worked on observed City holidays as outlined in the Employee Handbook. Must remain in compliance with the City's Drug & Alcohol policies.

Employee shall live no more than 30 miles from the South Jordan City border and have the ability to travel from their place of residence to the South Jordan City Public Works building in no more than 45 minutes time.

Perform other duties as assigned.
