

# Silly Snakes Instructions

**(see the back for pictures!)**

- Thread a bead onto the string and place it in the middle. This makes your snake's nose.
- Add 2 more beads to one end of the string. Put the opposite end of the string BACKWARDS through those 2 beads and pull tight.
- Add 3 beads to one end of the string and repeat the process. Your snake's head will be done.
- Add 2 beads to one end of the string and repeat the weaving as many times as you'd like to make the snake's tail.
