

Autumn Wreath Instructions:

Remember to have an adult help you with the scissors!

- Color the leaves and cut them out - or go outside and collect your own!
- Cut the center out of the paper plate, leaving enough room around the edges to place your leaves. Recycle or throw away the inside circle.
- Glue or tape your leaves around the wreath
- Tie the string around the wreath so you can hang it from a hook or doorknob
- Hang your wreath up for everyone to see!

Supply List

- Paper plate
- Paper or real fall leaves
- String
- Crayons, glue, or tape
