**L Remarks**  Local Option

E-62 responded to a vehicle leaking fuel. On arrival, FF's found an SUV that had hit some road debris and ruptured the fuel cell, which was actively leaking. FF's contained the spill by damming and dyking with spill sweep and an emesis basin. Then FF's attempted to plug the hole using Plug-N-Dyke. The Plug-N-Dyke from E-62 was too old and dry to adhere to the hole, so L-61 was called out to provide newer Plug-N-Dyke. The results were effective enough to slow the leak but not stop it completely. E-62 stood by for fire protection, until the tow truck arrived and picked up the vehicle.
