

BUDGET BILLING PLAN NOW AVAILABLE!

What is budget billing?

- Budget billing allows customers who have twelve months of billing history at their current address to pay the same amount each month.
- The monthly amount is calculated by adding the prior twelve months charges and dividing by 12.
- Your first Budget Billing amount will show on your bill due the next billing period after signing up.
- In July of each year, the budget billing plan amount will be recalculated to reflect the past 12 months of actual water usage.
- Your monthly statement will continue to show your actual utility charges, but you will pay the budget billing amount each month.
- It is recommend that you combine budget billing with auto pay (ACH).
